Become a Cosmetic  
Laser Tech

# HOW TO BECOME A COSMETIC LASER TECH

Are you unsure about how to get started in the health and beauty industry? Consider becoming a Cosmetic Laser Technician. Cosmetic laser training is a great way to get your foot in the door of this booming field, allowing you to both network and train on some of the hottest, advanced laser technology in the industry.

## Benefits of Cosmetic Laser Training

- You can train in two weeks or less, so you can begin gaining experience in no time
- You'll have one-on-one time with your own clients
- You'll learn about some of the most advanced and up and coming laser treatments as well as learn how to perform them
- You'll get the satisfaction of helping clients feel more confident in their own skin
- Laser training at National Laser Institute looks excellent on any resume! Imagine having Stanford or Harvard on a resume. Well National Laser Institute is the equivalent as we are the most prestigious brand in the market!

Many people who receive laser training end up staying within the medical aesthetic and laser field. Even those who thought they wanted to be strictly aestheticians often end up evolving to lasers. Countless career

changers with no beauty background enter this fun world! It's a fun, fast, and friendly environment that opens a lot of doors. Many of our students have gone on to work at physicians offices, dermatology clinics, medical spas, or even their own businesses.

## Frequently Asked Questions

### **Q: Why Become A Cosmetic Laser Technician?**

A: This is the field of choice for people who love helping others look and feel their most beautiful, possess excellent customer service skills, enjoy staying up to date on the latest cosmetic trends, technology and treatments, and prefer working in a dynamic environment.

The medical aesthetics industry is quickly growing and shows no signs of stopping any time soon. The Bureau of Labor Statistics predicts an overall job outlook of 11% growth through 2028 for all skin care specialists. In comparison, the national average for all jobs is 5%. Furthermore, a recent study found that the global medical aesthetics industry will reach \$17.07 billion by 2023.

### **Q: Do I Need An Aesthetics Or Medical Background?**

A: In most states, an aesthetics or medical background is not required to become a Cosmetic Laser Technician. Our attendees come from a variety of backgrounds, from recent high school graduates to physicians, and everything in between. Our training course is designed to get you trained in two weeks so you can start your exciting career as a Cosmetic Laser Technician.

## **Q: Are There Any Other Requirements?**

A: Most laser training schools require only a high school diploma or equivalent for admittance. As far as state laws are concerned, once you've received your cosmetic laser certification, requirements vary state-to-state. Typical coursework includes both classroom and hands-on training and covers a variety of topics such as skin anatomy, hair removal, and laser safety.

The more prestigious schools such as National Laser Institute also offer training in all of the latest and in-demand modalities such as fractional wrinkle and acne scar reduction, RF skin tightening, body contouring, laser tattoo removal, laser cellulite reduction and laser teeth whitening. We believe the more well rounded your education is, the more valuable you'll be to potential employers.

## **Q: What Are The Ideal Traits Of A Cosmetic Laser Technician?**

A: A successful Cosmetic Laser Technician will ideally possess:

- A passion for people
- A good aesthetic eye
- Good listening skills
- Careful attention to detail
- A willingness where necessary to be a team player
- Excellent customer service skills
- A professional demeanor
- A love for learning as this is a constantly evolving industry

**Q: What Treatments Can I Perform As A Laser Technician?**

A: It varies by state but may include treatments such as laser hair removal, wrinkle reduction, tattoo removal, cellulite reduction, spider vein treatments, fat reduction and body contouring, skin resurfacing, photofacials, and skin rejuvenation.

**Q: Where Will I Typically Work?**

A: Most medical and day spas offer cosmetic laser services as do many doctors' offices. There are also treatment-specific boutiques that offer services such as laser tattoo removal and fat reduction/body contouring. And many fitness centers, hair salons and health and beauty establishments now offer laser

hair removal and other laser beauty services. All of these workplaces are looking for trained, highly qualified Cosmetic Laser Technicians.

**Q: How Long Does It Take?**

A: Becoming a Cosmetic Laser Technician doesn't require months or years to achieve. Many of our attendees are currently employed and very few of them have the luxury of taking significant time off from work to pursue certification. Our hybrid cosmetic laser course classroom and didactic schedules are designed to fit your needs and meet your goals. You can enroll in online cosmetic laser class and in-person clinicals and start your new career in just two weeks!

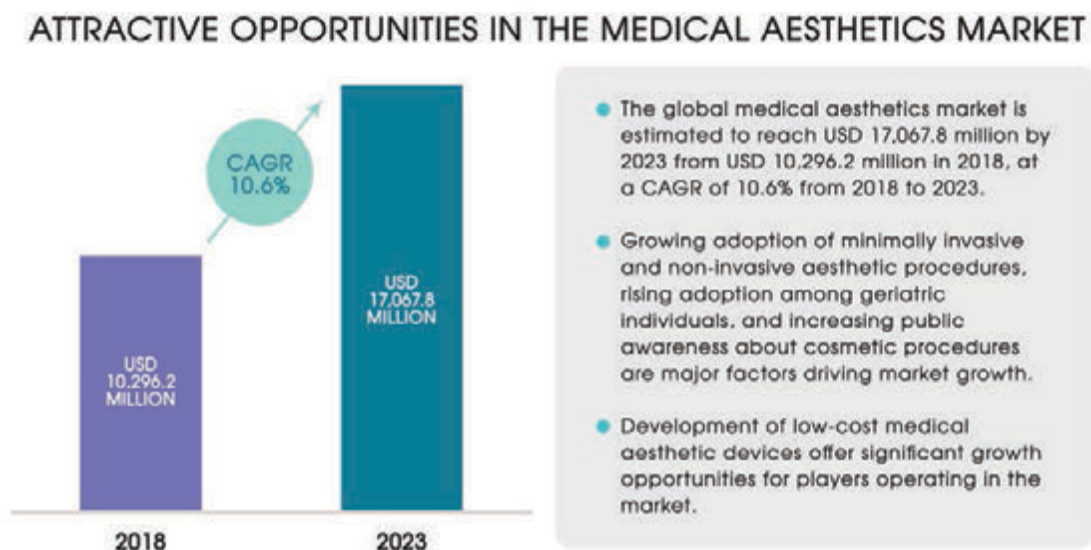

**Q: How Will I Pay for Laser Training School?**

A: We offer a variety of ways to help our students invest wisely in their future. National Laser Institute is affiliated with leading lenders and can

help get you into the classroom with ease. Our Scholarship For Financial Hardship During Unusual Times is designed to help students affected by the economy to help reduce the cost of tuition. We will respond to you within 48 hours to inform you if you qualify for financial assistance. We also offer a chance to win scholarships, simply by attending one of our many fun and fabulous monthly Skin Scene events.

### Q: What's the Job Outlook?

A: In a word, excellent! Baby Boomers are fueling the growth of the anti-aging medical aesthetics market while a younger clientele is having a significant impact on the growth of preventative and enhancement procedures. The Cosmetic Laser Technician is one of the most important players in one of the fastest growing markets, and this industry is projected to expand significantly over the next decade.

### Q: Where Do I Start?

A: Right here. Just call us! Our admissions advisors are happy to answer all of your questions about becoming a Cosmetic Laser Technician. Maybe you're not sure just yet whether this is the right career path for you. We've helped thousands of people just like you make the right choice by providing course plans to get started in their dream careers.

If you're passionate about the beauty industry and have a talent for helping people feel comfortable and confident in their appearance, then cosmetic laser training at National Laser Institute is definitely for you. We offer a variety of courses to fit your needs, as well as both classroom and hands-on training opportunities.
